

The Thomas Alleyne Academy, Stevenage: 14/8/25

The following is a shared statement from all Stevenage Headteachers:

Students across Stevenage have worked incredibly hard this year to achieve success in their examinations. We are all very proud of them.

Stevenage Headteachers will not be publishing overall statistics, but are instead celebrating individual students' achievements.

The Thomas Alleyne Academy are celebrating the results of their students' hard work today with a set of excellent results. Headteacher, Melanie Cook, said, "Our students are rightly very proud of their achievements today. Their hard work and commitment has paid off and we are delighted with the results they have achieved. We wish them all the very best for the future as they move into an exciting range of university courses, apprenticeships and employment."

Ben McAree has done extremely well achieving grades A*, A*, A, A in chemistry, maths, biology and physics. Ben will be reading Medicine at University College London in September. He said, 'I am really pleased with all of my results, especially the A* grades I achieved. I am relieved that I got the grades I needed and am excited to start my course next month.'

Emma Baker was also delighted with her grades this morning, achieving AAA in chemistry, maths and physics, and has secured a place to read Chemistry at the University of Southampton. Emma said, 'I was very stressed about my results but I am now so relieved. I did better than I expected and I am excited now to get started at university. The teachers here have all been so supportive and helpful.'

Anna Osadolor also achieved straight A grades in her 3 subjects, biology, chemistry and maths and will be starting as a Pharmacy student at the University of Bath next month. Anna said, 'I felt really nervous but I have done better than expected; my A grade in chemistry was a nice surprise! I am looking forward to starting at university but I will miss everyone at TAA.' -Imogen Simmonds who will also be attending the University of Bath to study for a degree in Chemical Engineering after securing AAB grades in chemistry, maths and physics. Imogen said she is 'very happy' with her results and is looking forward to starting her degree.

Ben Lew has secured a degree apprenticeship with Rokos Capital Management, an investment company based in London. Ben achieved AAB grades in chemistry, maths and computer science and said he was 'relieved' to get his results today. Ben said, 'I was keen to get an apprenticeship so that I could get some work experience and earn while I learn.' Ben thanked his teachers saying, 'they were so welcoming and helpful' during his time at the school.

Saha Jackson also achieved AAB grades today in business studies, sociology and maths and is looking forward to starting her degree in Accountancy in September at the University of Liverpool. Sasha said, 'I felt very nervous but I am so happy with these grades; I felt really supported by my teachers. I am excited to start my degree at university in September.'
